

Phase 9 — What to Do in Salesforce DE

◆ Step 1: Plan (very quick)

- simple list of reports/dashboards.

Example:

- Report: Appointments by Doctor (Today)
 - Report: Daily Revenue
 - Dashboard: Hospital Mnagement
-

◆ Step 2: Create Reports

Where in Salesforce:

1. App Launcher → **Reports** → **New Report**.
2. Pick a Report Type:
 - Patients, Appointments, Doctors, or Billing.
 - If you don't see Appointments with Billing → create a custom report type (Setup → Report Types).

What to do:

- Example 1: Appointments by Doctor
 - Choose "Appointments" report type.
 - Add columns: Appointment Date, Patient, Doctor.
 - Filter: Appointment Date = TODAY.
 - Group by Doctor.
 - Save → Name: *Appointments by Doctor*.
- Example 2: Daily Revenue
 - Choose "Billing" report type.
 - Add columns: Billing Date, Amount, Status.
 - Filter: Billing Date = TODAY.
 - Add a summary on Amount.
 - Save → Name: *Daily Revenue*.

Screenshot:

Report: Appointments with Doctor
Appointments by Doctor
Shows all Appointments grouped by Doctor with Appointment Date and Status.

My Appointments History To Do List Recent Items

◆ Step 3: Create Dashboards

Where in Salesforce:

- App Launcher → **Dashboards** → **New Dashboard**.
- Give name: *Clinic Today*.
- Add Components from reports you created:
 - KPI: Total Appointments Today
 - Bar Chart: Appointments by Doctor
 - Donut Chart: Billing by Status

Screenshot: Dashboard page.

◆ Step 4: Subscribe (Schedule)

Where:

- Open a Report → click **Subscribe**.
- Set frequency: Daily / Weekly.
- 📌 Screenshot: Subscribe screen;

◆ Step 5: Security Review

Where in Salesforce Setup:

1. Setup → **Sharing Settings** → set Patients object to **Private**.
2. Setup → **Profiles** → open a profile → Object Settings → adjust Create/Read/Edit/Delete.
3. Setup → **Object Manager** → Patient__c → Fields → choose a field → **Set Field-Level Security**.
4. Setup → **Object Manager** → Patient__c → **Set History Tracking** → select important fields.

Screenshot: Sharing Settings

The screenshot shows the Salesforce Setup page for Sharing Settings. The left sidebar contains a search bar with "sharing" entered and a list of navigation items: Security, Guest User Sharing Rule Access Report, and Sharing Settings (highlighted). Below the sidebar, a message states: "Didn't find what you're looking for? Try using Global Search." The main content area is titled "SETUP Sharing Settings" and displays a table of sharing settings for various objects.

◆ Step 6: UAT (Testing)

Where: Salesforce UI

1. Run "Appointments by Doctor" report → check numbers.
2. Open "Clinic Today" dashboard → confirm visuals.
3. Verify lower-profile user cannot see hidden fields (if set FLS).
