

Phase 8 — Data Management

◆ Step 0: Prepare Workspace

1. Created a folder:
2. Project/Phase8_DataImport/
3. This will store exported CSV files (Patients, Doctors, Appointments, Billing).

◆ Step 1: Export Data from Salesforce

Patients & Doctors (via Reports):

1. Go to App Launcher → Reports → New Report.
2. Select **Patients** object.
3. Add fields: Name, DOB, Gender, Phone, Email, Address.
4. Run Report → Export → Choose **Details Only** → Format = Excel (.xls) or CSV.
5. Save as Patients.csv in your folder.
6. Repeat same steps for **Doctors**.

7.

Appointments & Billing (via Data Export):

1. Go to **Setup** → **Data Export** → **Export Now**.
2. Select objects: **Appointments__c** and **Billing__c**.
3. Start export → Download ZIP file when ready.
4. Unzip → Save Appointments.csv and Billing.csv into your folder.

◆ Step 2: Clean Data

1. Open each CSV file in Excel.
2. Remove duplicates if any.
3. Check required fields (e.g., Patient Name, Appointment Date).
4. Standardize formats:

- Date = YYYY-MM-DD
- Phone = digits only
- Status = Paid/Unpaid (for Billing).

📌 Screenshot 6:

Patient	Doctor	Appointment: Appointment Num	Appointment: Created Date	Patient: Patient Name
P-0021	Dr. Sre	A-0031	9/24/2025	Alicea
P-0010	D-0003	A-0013	9/22/2025	chinchom
P-0019	Dr. John	A-0027	9/24/2025	hamza
P-0019	D-0003	A-0026	9/23/2025	hamza

A-0012	9/21/2025	Scheduled	P-0017	Dr. John
A-0027	9/24/2025	Scheduled	P-0019	Dr. John
A-0030	9/24/2025	Scheduled	P-0020	Dr Test Auto
A-0033	9/25/2025	Scheduled	P-0022	Dr Test Auto
A-0031	9/24/2025	Scheduled	P-0021	Dr. Sre

Billing: Billing Number	Appointment Number	Appointment Amount	Appointment Patient	Payment Status
B-0003	A-0004	1200	P-0003	Pending
B-0006	A-0029	500	P-0014	Pending
B-0004	A-0001	300	P-0012	Paid
B-0005	A-0004	400	P-0008	Refunded

◆ Step 3: Verify Records in Salesforce

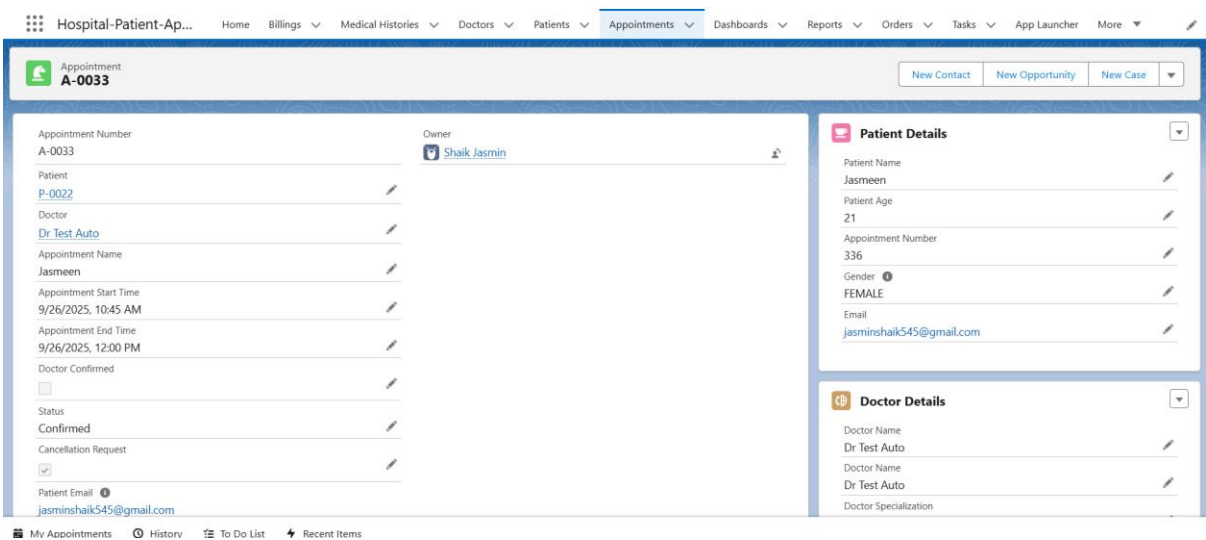

1. Open a **Patient record** → Check related Appointments.
2. Open an **Appointment record** → Check linked Doctor + Billing.

3.

The screenshot shows the 'Patient' record for P-0022. The patient's name is Jasmeen, age 21, with appointment number 336. The gender is FEMALE. The contact number and email (jasminshaik545@gmail.com) are also listed. The record was created by Shaik Jasmin on 9/25/2025 at 8:31 AM. Below the patient details, there is a section for 'Appointments (1)' with a 'New' button and a list of appointments, currently showing A-0033.

4.

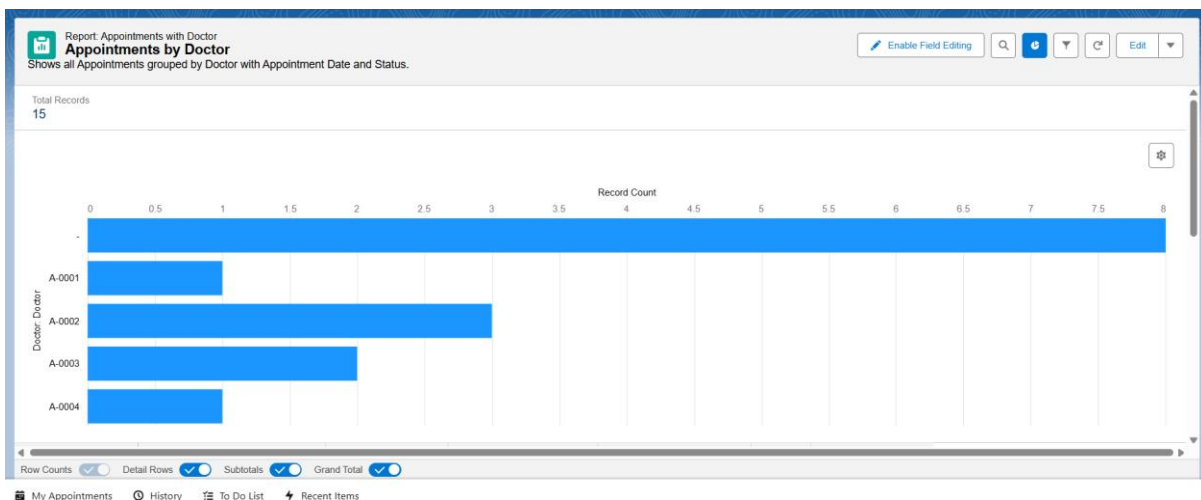

The screenshot shows the 'Appointment' record for A-0033. The appointment number is A-0033, patient is P-0022, and the doctor is Dr Test Auto. The appointment name is Jasmeen. The appointment start time is 9/26/2025, 10:45 AM, and the end time is 9/26/2025, 12:00 PM. The doctor is confirmed, the status is Confirmed, and a cancellation request has been made. The patient's email is jasminshaik545@gmail.com. The owner of the appointment is Shaik Jasmin. On the right side, there are sections for 'Patient Details' and 'Doctor Details'.

◆ Step 4: Reports & Validation

1. Go to **Reports** → **New Report** → **Patients with Appointments**.
2. Add fields → Run Report.
3. Confirm record counts match your CSV.

Screenshot 9:

◆ Step 5: Backup / Export Final Data

1. Go to **Setup** → **Data Export**.
2. Export all project objects (Patients, Doctors, Appointments, Billing).
3. Save ZIP → This acts as your Phase 8 backup.

✓ End Result of Phase 8:

- real data exported from Salesforce into Excel/CSV.
- Data cleaned and documented.
- Verified relationships (Patient → Appointment → Billing).
- Backed up safely.
